I Am Jesus

Nightfall

I am Jesus, this is who I am
Never died, never been a man
Stand by me under the stars
I love you, I envy your human scarsHold me up, then push me down
Seize the pain of the clown
It's a day, I praise the night
Who said wrong ain't loves the right?I am JesusIt's the new, I am the old
It's the rumour, the untold
It's the good, I am the mean
It's the heaven, it's the sin
