

Smile (feat. Sophie Meiers & Ben Beal)

Nohidea

Da da dai, da dai, da da dai, dai
Du du du du du
Du du du du du du du I really need you with me it's so lonely in this city
If you never knew what you wanted
How could you know just
What you're missing
Missing I just spent all my money on some shit I didn't need
Watch me swallow my insanity with bottles of 'legri'
Yeah, I'm walking through the city but it's feeling like a ghost town
Yeah, I'm dreaming that you're with me, but you're gone I'm so alone now Hating this situation, I'm too tired of
facing the feeling I'm craving
This life is amaing, but something is missing, and don't call me crazy but I feel like living way up in the stars
If I believe hard, I can make it
I'm trying to take a spaceship, this delay is fucking reigning
I'm wandering alone to places that I've never been
I'm putting my mind in the sky, letting the whole world in
My personality is ninety-two or ninety-three
Let's get lost up in the past, why don't you spend this day with me You couldn't pay me to be lazy on this
perfect day with you
Thinking of a payment plan iz go(at) standard substitute
Got a blunter so in love with you
Coping with his drugs to pose
Life'll keep on living
We're just waiting for the summer, tchuuh He wouldn't know what you're missing
Left with no one's permission
Writing rhymes in your kitchen while you're changing your clothes
I'm turning smiles to frowns
Now nobody's around
So here's a song with some more shitty thoughts or oh
I'll be thinking of you
As I stare up at the sky
Darling, you're my favourite
Reason to cry
