Dress for the Weather

Action Item

You've got this thundercloud around you, and I'm waiting for the storm.
I've brought my boots, my coat, my umbrella, and I'm just tryin' to keep you warm.
I've made a list of things I've always, but never meant.
Let me take you to your bed, so I can erase them from your head.Get home faster, this is a disaster, I should know better than dress for the weather.
Call me crazy, I think you're amazing, this is the part where we get a little closer.Casey, I know you think that I'm rarely worth your time, but baby, would you be willing to change your mind?
And I pick myself up, and dust myself off before I get a chance to speak.
If you have the time, just give me a chance, I'd love to change your mind about me.Get home faster, this is a disaster, I should know better than dress for the weather.
Call me crazy, I think you're amazing, this is the part where we get a little closer now.
Get home faster, this is a disaster, I should know better than dress for the weather.
Call me crazy, I think you're amazing, this is the part where we get a little closer now.Get home faster, this is a disaster, i should know better than dress...
Call me crazy, I think you're amazing, this is the part where we get a little closer now.
Get home faster, this is a disaster, I should know better than dress for the weather.
Call me crazy, I think you're amazing, this is the part where we get a little closer.You've got this thundercloud around you, and I'm waiting for the storm.
I've brought my boots, my coat, my umbrella, and I'm just tryin' to keep you warm.
