

Can You Dig It

Harvey Averne

Can you dig it by Harvey Averne

Can you dig it, I know just where Iâ€™m at
Can you dig it, he youâ€™re a guest In a movie , life is a movie
Starring love, starring me

Can you dig it, is your hair really straight
Can you dig it, have I met you too late

Well itâ€™s all right now, just all right now
Listen to what I say

I live when you touch, I need you so much
Can you understand, I must be your man..

Can you dig it, life is tough by the pair
Can you dig it, little girl, youâ€™re making me will

Fame and fortune, to the sorrow
Without love you just canâ€™t win

Donâ€™t you know that I love you so
Donâ€™t leave me, please donâ€™t ever go

Donâ€™t you know at best, had to keep my faith
And when weâ€™re doing the whole world swings

Can you dig it, do you know what I mean
Can you dig it, itâ€™s so hard on my dreams

Yes I love you, how I love you
Hope you feel the same way too, yes I do

Donâ€™t you know that I love you so
Donâ€™t leave me, please donâ€™t ever go

Donâ€™t you know at best, had to keep my faith
When we are doing the world swings
I say, when we are doing the whole world swings

Got to keep on swinging
Got to have a swinging world)2x

Can you dig it 10X
