Keep It To Yourself

The Jeff Healey Band

You turn on the light
Then you turn it back off
'Cause sleeping alone, yeah it ain't what you thought
It's the drip of the sink
It's the click of the clock
And you're wondering if I'm sleepingYou heard from your friends
That I'm doing okay
And you're thinking, maybe you made a mistake
And you want me to know
But I don't wanna know
How you're feelingSo keep it to yourself
If you think that you still love me
Put it on a shelf
If you're looking for someone
Make it someone else
When you're drunk
And it's late
And you're missing me like hell
Keep it to yourself
Keep it to yourselfYou see me out
And I'm standing alone
Well it don't mean that I'm gonna need a ride home
If you walk up to me
Like it ain't what it is
Know that it ain't gonna end with a kissSo keep it to yourself
If you think that you still love me
Put it on a shelf
If you're looking for someone
Make it someone else
When you're drunk
And it's late
And you're missing me like hell
Keep it to yourself
