## Ena PÃ¡; 2000

The feeling is growing  
We have to keep up with the Jones"  
    We have to keep up the demand  
    Because the supply is getting more  
    Will there be catastrophic circumstances  
If the e-mail and dot comms capture the world  
    And cyberspace is a holiday place  
    And your best friend lives on Mars  
        Do you remember  
    Glamour on Sunset Boulevard?  
        Do you remember?  
        Do you remember?  
    When ladies were ladies  
        And men were men  
But now the future's taking over  
    We're out of control again

It's more like Barbarella  
    Barbarella  
It's not like the old 50's glamour  
    Coming out of the 90's  
Everybody thinks we're getting wiser  
"Cos we're seeing 3-dimensional and  
    We're filling up wide open space  
Interactive - the word of the moment  
Laughs the old gentleman in the face  
A generation we can never replace  
    Never never replace  
We nearly hit the history books  
    And it starts all over again  
    Virtual reality isn't real  
        Virtual reality, yeah  
        Isn't real
