Stay Strong

J Chozen

See we can never, Oh stay strong oh if never you see if I never had, we here we in here we salute, we salute so hard so hard oh hard we come so far maybe that night is so cold and a room so dark and the lights so dim It might cause others to come up but god has a plan for us for us oh for us and I tell you his plans for use is to celebrate life and all that is giving to us, stay strong see I know you heard it but you gotta stay strong you gotta stay strong I need them to hold on and stay (9x) strong I need you to hold on and stay (9x) strong
