# Malpractice

## Belvedere

Tell me doctor why you look so sad
Tell something is the news that bad i'll never see
An apology
And I can't believe the problems facing me
An apology
And I can't believe the problems facing me
I've tried to ignore my pride close my eyes
An explanation what went wrong I know i'll never see
An apology
And I can't believe the problems facing me
An apology
And I can't believe the problems facing me
I've tried to ignore my pride close my eyes
