## Belvedere

Tell me doctor why you look so sad  
Tell something is the news that bad i'll never see  
An apology  
And I can't believe the problems facing me  
An apology  
And I can't believe the problems facing me  
I've tried to ignore my pride close my eyes  
An explanation what went wrong I know i'll never see  
An apology  
And I can't believe the problems facing me  
An apology  
And I can't believe the problems facing me  
I've tried to ignore my pride close my eyes
