

# You're so Wonderful

## Cane Hill

Isn't she perfect?

Isn't she everything I need?

Isn't she worth it

Even if I can barely breath? Now the days drag on and no one seems to care anymore

And we had our time, but now we're just dirty and bored So you take and you take and you leave me dry

And you break to escape and you know I'm right

Not a day, not a day, not another night

You're so wonderful

You're so wonderful Isn't this perfect?

Isn't this everything I need?

Damned if I'm worth it

Damned if I hold my breath to see Now the days drag on

And I don't even care anymore

And we had our fun

But now we're just dirty and bored

No one's listening So you take and you take and you leave me dry

And you break to escape and you know I'm right

Not a day, not a day, not another night

You're so wonderful

You're so wonderful Isn't she perfect?

Isn't she everything I need?

Isn't she worth it?

Even if I can barely breath? So you take and you take and you leave me dry

And you break to escape and you know I'm right

Not a day, not a day, not another night So you take and you take and you leave me dry

And you break to escape and you know I'm right

Not a day, not a day, not another night

You're so wonderful

You're so wonderful
