

Black Cloud

Alu

You could be my perfect dream
and I could be your black cloud.
You could be my rainbow beam
and I could be your black cloud

Black cloud, Black cloud.
I could be your black cloud.

Can you feel my vacancy?
It's scattered in the darkest sky.
Thunder crashes calling me
speak louder than your sweet good-bye.

Black cloud, Black cloud.
I could be your black cloud.
I'd like to be your black cloud.
I'll be your black cloud.

Black cloud. Black cloud.
I could be your black cloud.

And do you even know the dreams that we let die?
The storm has taken over me. Hush now, don't you cry.
And do you even know the dreams we left behind?
And do you even know it's raining in my mind?
It's raining in my mind.

You could be my perfect dream
and I could be your black cloud.
Black cloud, Black cloud.
I could be your black cloud.
I'd like to be your black cloud.
I'll be your black cloud.

Black cloud. Black cloud.
I'd like to be your black cloud.
I'll be your black cloud. (I'll be yours).
I'll be your black cloud. (I'm yours).
I'm your black cloud.
