

# Gyroscope

## In Flames

Geology is digging through my brain  
A manta engulfing the world  
To throw it up once again  
To a guild of lifted daggersNeo-wolf, but older again  
Than the Lupus itself  
Linked its fur to the gyroscope of time  
A collection of failuresA diabolical sequence of stabs  
Written in cutting stone  
From the fossilized den of thieves  
Our lives dieNeo-wolf, but older again  
Than the Lupus itself  
Linked its fur to the gyroscope of time  
A collection of failuresI see the nursing all mother  
Spitting out a trail of termites  
In the mouth of her first born hope  
Breasts ripe with smog filled rebellionApathy dressed in violence  
White insectoid legs  
Curse her lips and her mouth  
Receptive only to painBut older again  
Than the Lupus itself  
Linked its fur to the gyroscope of time  
A collection of failures
