Wings are made to fly fly fly  
Fly fly fly

If my wings could fly(ENGLISH)  
Take me to the sky  
Put your hands up to the sky  
Yeah, if you feelin' the vibe  
Uh, if you're ready to fly

Yo J, let's do itI remember my childhood  
Because I had no big worries

I knew these small feathers would become wings  
I knew the wings would make me fly  
I had that faith  
Along with laughter(Like a bird)

I went on the road that I was told not to go  
I did things I was told not to do  
I wanted things I couldn't want  
I got hurt and hurt again  
You can call me stupid  
Then I'll just smile  
I don't wanna succeed

By doing things I don't wanna do  
I'm pushing myself  
WordI believe in myself

My back hurting is for my wings to come out  
I believe in you, even if things are bleak right now  
The end will be great  
Fly, fly up in the sky  
Fly, fly get 'em up high

It's the path you chose, dude don't be scared  
This is just the first flightTake me to the sky  
If I can fly  
If I can run away forever  
If my wings could fly

Piercing through the air that's getting heavierFlying, flying  
Higher than higher than

Higher than the sky  
Flying, flying  
With my reddened wings Spread spread spread my wings  
Spread spread spread my wings  
Wings are made to fly fly fly  
Fly fly fly  
If my wings could fly Now I know  
I'm breaking up with regretting with age  
I made a decision  
I will have unconditional trust  
It's time to be brave  
I'm not afraid  
Because I believe  
Because I'm different from before  
I won't cry on my path  
I won't hang my head low  
That is the sky  
And I'll be flying there, fly Spread spread spread my wings  
Spread spread spread my wings  
Wings are made to fly fly fly  
Fly fly fly  
If my wings could fly
