

Blow Your Mind

Baha Men

Music is for everyone Baha Men gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher The party has just begun
Everybody is here to have some fun
And the music just won't stop
Till we see the morning sun I think it's time we met
'Cause you know that I'm in the mood to sweat
I wanna see you dance
Till your body's soak and wet Who gets the party started
We did, we did
Baha Men been around the world
And freaked, it freaked it Are we getting hotter now
Well, you don't have to ask that thing
Just get up on the dance floor
And let us do our thing, yeah Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher The vibe is what we bring
And the ladies love the way we sing
So if you feeling this
Girl, you gotta shake your thing Tell me do you feel the heat
I can see you moving to the beat
This one is mighty hot
That's the word out on the street Who got the party started
We did, we did
Baha Men been around the world
And freaked, it freaked it Are we getting hotter now
Well, you don't have to ask that thing
Just get up on the dance floor
And let me hear you scream, yeah Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher Music is for everyone
Doesn't matter where you're from
We all have our favorite song

Every time you turn around
It seem the whole worlds singing along
Come with the calypso beat that coming through
Combined with Junkanoo and busting the groove
You'll know we kick it when we bust the dust
Lisa know we kick it when we bust the dust
Sherene know we kick it when we bust the dust
You'll know we kick it when we bust the dust
Come on, know we kick it when we bust the dust
All the girls them in the city know we doin' it now
Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher
Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher
Baha Men's gonna blow your mind
We're gonna get it on tonight
Come on down and enjoy the ride
The music takes you higher and higher
Baha Men's gonna blow your mind
We're gonna get it on tonight
