Fade Out

Rival Sons

House is empty
Fade out slowly
Go out your own way
Go out and get what you need
For if you don't stay
There's nobody watching you bleedGhost is what you are now
Out there where no one can see you
Gone out in the dark
Somehow I could still feel youTime is only a fear
It lives on what you will feed it
You are only a leaf
The tree is so deeply rootedGhost is what you are now
Out there where no one can see you
Gone out in the dark
Somehow I could still feel you
