# Feel The Fire

## Masterboy

I feel the fire, I feel the fire
Right when I look at you
I feel my desire, feel my desire
You got me hooked on you
Feel the fire, burning desire
Give me love, not a fantasy
Feel the fire, burning desire
You and me come on set me freeTry me out, take a chance,
It's up to you in your hands
Trust in me, have no fear
Tell me where we go from here
Baby, Baby don't say maybe
Come on show me what's the way we
Take high and higher
Baby can you feel the fireLife goes on as it seems
Love you know what it means
To care and share, to live and to give
Someone looses, someone wins
Feelings you don't have to hide
Fire that burns inside
If you give up you will lose
Live your life the way choose
