Wages Day

Deacon Blue

There he stood and there we left
Outside the flashing neon sign
With the smell of cheap cigars
And the hope of sweet perfumeAnd his heart, it was reeling
With the thrill of it all
All to do and only hours
He said, All this is all yoursAnd you can have it all
You can take it all away
From where we left off
Living it all your wayIf you stand in my shoes
If you do what I do
On a wages day
On a wages dayAnd the cap from Disneyland
That his cousin, she brought back
Stays open in his hand
From one week to anotherAnd this long, narrow land
Is full of possibility
All to do and only hours
He said, All this is all yoursYou can have it all
You can take it all away
From where we left off
Living it all your wayIf you stand in my shoes
If you'll do what I do
On a wages dayAnd you can have it all
You can take it all away
From where we left off
Living it all your wayIf you stand in my shoes
Have you do what I doOn a wages day
On a wages day
On a wages day
On a wages dayOn a wages day
On a wages day
If you do what I do
On a wages day
