

He's Been Good

Virtue

Virtue, representing
[Incomprehensible] gospel, yeah, 2001
Come on, yeah
First verse I don't wanna sit and think
About all the things that weigh me down
Not when I know God has been good
Times when no one else understood Since I put it in the Masters hands
Now I can live again
I don't know why He loves me so
But there's one thing I know When I think on the things that He's done for me
Danger ahead, that I could not see
My soul cries, "Hallelujah"
Without Him, where would I be? He's been good, anybody else feel this way
Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me I'm sure you know
Just what I mean when I say
God has been good
He's giving mercy everyday Since I put it in the Masters hand
Now I can live again
I don't know why He loves me so
But there's one thing I know When I think on the things that He's done for me
Danger ahead, that I could not see
My soul cries, "Hallelujah"
Without Him, where would I be? He's been good, anybody else feel this way
Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me Anybody else feel this way
Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me Yeah, if He's been so good to me
[Incomprehensible] Virtue, [Incomprehensible] 2001
C'mon When I think on the things that He's done for me
Danger ahead, that I could not see
My soul cries, "Hallelujah"
Without Him, where would I be? He's been good, anybody else feel this way
Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me Anybody else feel this way

Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me If God's been good clap your hands
If God's been good, stomp your feet
If God's been good, give Him praise
If God's been good, groove with me If God's been good clap your hands
If God's been good, stomp your feet
If God's been good, give Him praise
If God's been good, groove with me, c'mon He's been good, anybody else feel this way
Can anybody else help me say, He's always been so good to me
Well you might as well face the facts, ain't nobody ever had your back
Not like that, He's been so good to me
