Faith Is the Light

BlackHawk

Life can kill you if you let it
I don't want to die.
I don't want to hang my head and cry.
I know there's always tomorrow
When the night is long.
I wake up and my fears will finally all be gone.
I will face the day. Make it go my wayCHORUSFaith is the light that keeps burning inside me
The one thing in this world no one can deny me
it gives me a reason to keep on believing
When darkness leaves no hope in sight
faith is the light.Somewhere in this loneliness somebody waits for me
So I keep on searching faithfully
Many times i've lost my way
But I still got a prayer
Even when the weight is more than i can bear
As I wonder on...i know i'm not alone.
