Square 9

Frightened Rabbit

My good big deeds
i'd say are more like clouds than concrete
by day we'll colonize
and by night, we'll bring peace
Keep all your hopes
compile a crooner's woes, o-oh,
work out how to, how to complete these
and you can peel those eyes
'cause it's important that they see
my hopeful smile
and then you stomp out fear
there's something I like about this year
Square 9 is here
So come, stay calm
right there behind your ribs and grab my hands
stages are just stages for us to pass

and you should peel those ears
'cause it's important that they hear
my hopeful words
and stomp out fear
there's something I like about this year
Square 9 is here, is here
It'll be like square one
where we fell in love
Forget about square two
There was no me and you
just like square one
where we fell in love, under the tree
forget about square three
oh that wasn't me
like square one
where we fell in love
forget about square five
i was only half alive
