With You With Me

Chloe Day

Could we should we
catch the next train outta here
would we make it on the road
where do the days go where do the days go
wrapped up in a retro world
where do the days go where do the days go
who wouldn't wanna fall

with you, with me
caught between the ages of the Beatles and the Deftones
with you, with me
caught between the ages of the Beatles and the Deftones

Won't you tell me
why everybody's talkin' 'bout the latest in the punk scene
we should sound more like the Shins
and i tell them
i wouldn't know them
i wouldn't know them
mainstream music has long escaped me
couldn't we show them couldn't we show them
who wouldn't wanna fall

with you, with me
caught between the ages of the Beatles and the Deftones
with you, with me
caught between the ages of the Beatles and the Deftones
with you, with me
who wouldn't wanna fall
