Drop The Girl (Colin Version)

Hit the Lights

Drop the girl, shes not worth the time
Shes wasted on her back
Dragging other boys into her lies
And you know shes no good for you
She'd sink lower than her body
In the Hudson could ever doDrop the girl, shes only got it for your heart
Shes sure to leave you broke and bleeding
'Cause shes all about trying to figure out the breakdown
And you know shell turn her back on youShe covers her tracks and buries the clues
Shes only set out to burn you
And you know you're better off, so cmonDrop the girl, shes the only reason
Shes got you believing it's love
Drop the girl, the bridge is fast and burning
Set her down in flames and get upDrop the girl, you can taste it on her lips
Whats she drinking? Who shes been with?
Shes so turned on, how every things gone wrong
It's all her fault and you know, shell turn her back on youShe covers her tracks and buries the clues
Shes only set out to burn you
And you know your better off, so cmonDrop the girl, shes the only reason
Shes got you believing it's love
Drop the girl, the bridge is fast and burning
So set her down in flames and justDrop the girl from the highest building
You can when you have to
You gotta see through the skin
Drop the girl, the bridge is fast and burning
Set her down in flames and just
Drop the girlThrow your pride aside and show your friends some faith
Is there a night where she forgets your name?
Whos got your back when
Every thing's starting to fall right apart again?
C'mon, is that what it takes?Throw your pride aside and show your friends some faith
Is there a night where she forgets your name?
Whos got your back when
Every thing's starting to fall right apart again?
C'mon, is that what it takes?Drop the girl, she's no good for you
She'd sink lower than her body
In the Hudson could ever do
Drop the girl, shes the only reason
Shes got you believing it's love

The bridge is fast and burning
Set her down in flames and justDrop the girl from the highest building
You can when you have to
You gotta see through the skin
Drop the girl, the bridge is fast and burning
Set her down in flames and just
