Dead And Gone

I Am The Avalanche

At the bottom of a swimming pool
I think I found a clue
I know
That I'm getting closer
I'm looking for fingerprints
Some sort of documents
To find the only one who made it all the way from the sunShe's gone away
She's gone away
I need to hear her say
The world doesn't mean as much as you doI can learn the truth
You see him everyday
You wish that he was me
You try to find a way to bring yourself to itShe's gone away
She's gone away
I need to hear her say
The world doesn't mean as much as you do
No one means as much as you doHey[x11]
She's dead and gone away
Hey[x11]
She's dead and gone awayShe's gone away
She's gone away
I need to hear her say
The world doesn't mean as much as you do
No one means as much as you doHey[x3]
She's dead and gone away
Hey[x3]
She's dead and gone awayAt the bottom of a swimming pool
I think I found a clue
I know (I know) I know (I know)
That I'm getting closer
And you see him everyday
You wish that he was me
You try to find a way to bring yourself to it
