If You're Going to Heaven

[Burden Brothers](#)

If you're going to heaven
And you think, you know the way
Please, show me the right direction
And I'll follow you, I won't let you get awayIf your heart is sad and heavy
You hide your face behind your hands
But if you'll take a chance and let me
Follow you, I will always be your manYou know, I don't need your attention
I don't need your pity or your grief
I'm not a slave to your affection
I'm a slave to your beliefSo if you're going to heaven
Say you won't leave me behind
'Cause without you I'm as helpless
As a little child, God, I need You by my side
