

# Make It Happen

## Blue

Tonight you'll call  
We'll talk the way we always do  
But still you won't  
Say anything I want you to  
And though your words are sweet  
They just can't ease my pain I guess I've waited far too long  
You just can't lead me on Don't just talk, make it happen  
Don't make me wait for you  
Do what you came to do  
Keep me up Don't stop make it happen  
It's got the best of me  
This curiosity  
Kills me every time I'll wait for you  
To ring my bell, I want you too  
So don't be late  
Quit playing games, don't hesitate 'Cause now I've waited far too long  
You just can't lead me on Don't just talk, make it happen  
Don't make me wait for you  
Do what you came to do  
Keep me up tonight Don't stop make it happen  
It's got the best of me  
This curiosity  
Kills me every time You know that I won't do you wrong  
This love I feel is far too strong  
'Cause now I've waited far too long  
You can't just lead me on Don't just talk, make it happen  
Don't make me wait for you  
Do what you came to do  
Keep me up Don't stop make it happen  
It's got the best of me  
This curiosity  
You know it kills me every time Don't just stop, make it happen  
Don't make me wait for you  
Do what you came to do  
Keep me up Don't stop, make it happen  
It's got the best of me  
The curiosity  
Kills me every time
