Play Me

Jumpin' Quails

Baby, baby, ooh, do you wanna see me?
Never really want to fight the feeling and I like the color of your eyes
Baby, baby, many times the words are spoken
Complicated but unbroken, no doubt somebody will decide
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Maybe you don't wanna be you 'cause time after time gets riddled
And I know the price you've paid, turn away
Someday everything you want and desire
To find another way move higher
'Cause I know the price you've paid, turn away
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Maybe you don't wanna be you 'cause everything we do gets mirrored
And I know the price you've paid, get away
Someday everything you want and desire
Will be the thing that gets you higher
'Cause I know the price you've paid, turn away
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
It's a flashback baby, woo, woo, woo
You got me seeing things I never would see before
And now I flashback, I've hit the roof
And now you're loving it and you're wanting it
I'm not losing it over you boy
It's a flashback baby, woo, woo, woo
You got me seeing things I never would see before

And now I flashback, hit the roof
And now you're loving it and you're wanting it
I'm not losing it over you boy
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
Play me and strum me like a guitar
Play me, you make me wanna, ooh, ah
Play me, oh baby, baby keep me moving on and on and on
