

# Cautious Lip

Blondie

I see you skip that cautious lip  
Now tell me this through that cautious lip  
You can be bit as I make you it  
I see you skip that cautious lip A chance you'll fit that cautious lip  
It's just these things, not really gifts  
It's just these things, not really gifts  
I seen you skip that cautious lip I seen you skip that cautious lip  
But never miss my bouncing hips A girl so sweet, a love so strong  
I see you skip, I see you tip  
You can be bit as I make you it  
I see you skip that cautious lip Ah, I see you skip that cautious lip Cautious lip, cautious lip  
You can be bit  
I'll make you it  
I seen you skip Cautious lip  
Change your fit  
Skip of the lip  
Not really get  
Skip, lip ,oh, oh, ah What's going on?
