Blind Evolution

Trash Talk

I've got a problem, with no solution
The resolution's out of reach
I claw and crawl through the flies on the wall
I hear the venom you speakTalk, talk, talk about creation...
It's all talk you only tear me apart.
Eyes close you walk the walk of evolution,
Your revolution's already lost.You take and take and take
You strip until I'm stripped
You bend until I break
Pulled apart at the the seams, it seems
Like everything you wanted in life was just a dream
I don't care where you're going
I just care that you're gone
I don't care about your movement
I just want to move onTalk, talk, talk about creation...
It's all talk you only tear me apart.
Eyes close you walk the walk of evolution,
Your revolution's already lost.You take and take and take
You strip until I'm stripped
You bend until I break
I just want to move onYou take and take and take
You strip until I'm stripped
You bend until I break
I don't care where you're going
I just care that you're gone
