

Too Many Times (Yoda Remix)

Kai Tracid

Too many times, you have been high
too many times, you ran away, in need to cry
too many times, your body lies awake
too many times, these pills you take...too many times, you woken up depressed
too many times, you put your life to the test
too many times, you've taken this trip
too many times, you have slippedtoo many times, your body cant take
too many times, you made a mistake
too many times, you havent realized
too many times, you mind became paralyzed
