

Almost Perfect

[Vaughan Penn](#)

There's a reason for the situation
It's amazing, the shocking revelation
Love is crazy, it's got me upside down
It's got me upside down Well life hits you and love gets you
You just gotta go with the flow Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here If you give in, don't let it freak you out
'Cause you're the one thing I've got this thing about
It's this emotion it's got me inside out
It's got me inside out Well life hits you and love gets you
You just gotta go with the flow Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here It's almost perfect here
