

Get Along

Morcheeba

And so the end begins
As thunder rumbles in
Odds are stacked against us
Fat chances now seem slim
Get along

Get acquainted

Get along

Demonstrate it

Get along

Get creative

Get along
And so the deep ends

As day breaks swaggers in

Staggering with no desire

I lose to watch you win
Get along

Get acquainted

Get along

Demonstrate it

Wooh I'd give my life to win some love from you Yo'

I'm Pace Won the gapper

Blast past the rapper

Laugh at your master

Snatch bags and smack ya

Rough songs AOP ASCAP and AFTRA

Add mass I'll grab ya

Fast as ya blasta

Can't match the bastards

Stand back ya haveta

Rap times are crackin

Randsack your asthma

Ladies trends

Mercedes Benz

Shady friends

Lady's bend backwards
Get along

Get along
Get along

Get acquainted

Get along

Demonstrate it

Wooh I'd give my life to win some love from you
