Miss You

Social Code

I'm out here on my own
Feeling lost and all alone
I'm mad that you were gone
All my friends are moving on[Chorus]
I'll miss you forever
I'll miss you always
Good bye is so hard
But I'll say it anyway
The silence after
this disaster
Can't keep my laughter from healing all my painThis story's getting old
This dusty picture's growing mould
I feel trapped inside this place
If only one last time
Just you and I
Could stand here face to face[Chorus]
I'll miss you forever
I'll miss you always
Good bye is so hard
But I'll say it anyway
The silence after
this disaster
Can't keep my laughter from healing all my painTime stands still
Every time
You come to mind
Just like
It did that day
when you chose to walk away[Chorus]
I'll miss you forever
I'll miss you always
Good bye is so hard
But I'll say it anywayI'll miss you forever
I'll miss you always
Good bye is so hard
But I'll say it anyway
I'll say it anyway
I'll say it anyway
I'll say it anywayI'll miss you always
