

# Rap Star

## Tyga

Rap star, need fast cars, cash in large amounts  
I need a bitch with an ass that bounce  
A fat ass and titties that bounce  
You know I'm in the street when the city come out  
When the city dumb out  
When you envision me  
(Can you tell me) am I getting it though? I'm a rap star, call the task force  
I make your club collapse  
After I leave with the bad ones  
Presidential suite with the bad ones  
Told my niggas ya'll can have them  
Cause I have one, I'm on FaceTime with her  
When she blowing you kisses, saying she miss ya  
Could have anyone she want, she just wanna be with ya  
I'm a rap star, I just wanna get richer  
You might slip when I talk, you know I'm slick when I talk  
Rap star, got plaques on my wall  
That's art and facts on my wall  
Crib I bought got two gates for security guards - it's a palace dog!  
I remember when I didn't have it dog  
And back then I was still saying I'ma have it dog! (Could you imagine?)  
I'm a rap star, need fast cars, cash in large amounts (That's all)  
I need a bitch with an ass that bounce (That's all)  
A fat ass and titties that bounce (Rapstar)  
You know I'm in the street when the city come out When the city dumb out  
When you envision me (Can you tell me) am I getting it though?  
I'm a rap star, can you imagine?  
Putting chains on ya man's neck, cause the muscle stronger the fan flexin'  
Dealing with gossip, hate and threats  
When they bettin' against you and you raise the bet  
Yeah, you got 'em there nigga, you got 'em scared  
They not prepared, you got 'em right where you want 'em, right there  
I'm a rap star and your nightmare  
Used to slapbox, now we don't fight fair  
Life ain't, so I ain't  
This about my team, cause they ate when I ate  
Yeah they steak like my steak Handle they beef like it's on my plate  
I'm a rap star that graaa, graaa, graaa That "move, let 'em through, get back" (Could you imagine?)  
I'm a rap star, need fast cars, cash in large amounts

I need a bitch with an ass that bounce  
A fat ass and titties that bounce  
You know I'm in the street when the city come out  
When the city dumb out  
When you envision me  
(Can you tell me) am I getting it though?
