

# Bite My Tongue

## You Me At Six

I hate to break it to you but,  
You're just a lonely star  
I try to bring you down but,  
Our level isn't good enough  
You always do as you please, so I'm going to follow suit and take a seat.  
Watch you fall apart, cause in the end what are you without me?  
I'll slow this down cause I know that you can't keep up.  
Oh maybe I maybe I was wrong from the start.  
I might be proud, but at least I'm proud of something. You've taken pride in becoming nothing  
You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me  
I'm married to the music, for better for worse  
You say that I'm privileged, but my gift is my curse  
I can't recall the last time someone asking how I was  
Last I checked I was a fucking wreck, I called for help and no one showed up  
So I sit in the dirt  
You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me  
  
You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me  
Just forget what you've learned  
Just forget what you've heard  
The truth should come first  
I can't bear the sight of you anymore  
You've become what I hate  
Sold yourself for a bit of fame  
Now the wolves have closed their doors  
You wanna drag me down some more  
Fuck you  
Fuck you  
  
You keep me on the edge of my seat

I bite my tongue so you won't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me  
You keep me on the edge of my seat  
I bite my tongue so you won't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me
