

# Just Say Yes

## The Cure

Say this is it, don't say maybe, don't say no  
Say this is it, don't say hold on, don't say slow  
Say this is it, don't say next time, don't say when  
Say this is it, don't say later, no, don't say then Just say yes! Do it now, let yourself go  
Just leap, don't look or you'll never know  
If you love it, you might really love it  
Oh come on, come on and love it Yeah, this is it, don't be cautious, don't think twice  
Yeah this is it, don't play it safe, don't put it on ice  
Yeah, this is it, don't chew it over, no don't kick it around  
This is it, don't wait and see, don't try to work it out Just say yes! Do it now, let yourself go  
Just leap, don't look or you'll never know  
If you love it, you might really love it  
If you love it, you might really love it Oh don't tell us it could all go wrong  
No don't tell us it could all be a mess  
So don't tell us it could all be a waste of time  
Just say oui! Si! Sim! Da! Ja! Yow! Igen! Kylla!  
Just say yes!
