

Have You Seen Her?

Just a Band

Where did love go?
Have you seen her friend?
Do you care, do I care that she ran awayIs she around the corner?
Or walking through the streets?
Where could she be?
In the sky in the trees
I heard them talk about her
Well is she really real?
Or just a fairytale I heard the preachers tell
Well I will look for love in your faces
Can't seem to find her in your words
Well if you know her, see her
Ebu niambie-ee-eeWhere did love go?
Have you seen her friend?
Do you care do I care that she ran away
Where did love go?
Have you seen her friend?
Do you care do I care that she ran awayIt's been such a long time since I felt I belong
The world around me it just keeps on getting co-o-old
So cold, so dark, so grey
Love won't you come to me
Bring back the sunshine she's a mile away
Najua hauko mbali sio mbali namii
Ninayo tumainii natumainii kweli
Niambie uko waapi-iiWhere did love go?
Have you seen her friend?
Do you care do I care that she ran away
Where did love go?
Have you seen her friend?
Do you care do I care that she ran awayWhere did she go on a summer's day?
Where did she stay on a winter's day?
Where did she run to?
Where did she hide?
Who did she talk to?
Did she just smile?I doubt she's okay but she's gonna be fine
I'd like to forget the day that love lost her smile
I doubt she's okay but she's gonna be fine
I'd like to forget the day that love lost her smile.
