

Dirty Little Secret

Savo

I like to hide in a dark place deep in my head. Its in this space where I think of you and its dirty its my secret. I know this sounds crazy, but I have come to terms with this new norm and I think that I can share it with you.

Just lie back and relax while I open this space I know that you can keep it, this dirty little secret. My secret space its getting naughty and a little deranged. Id like to share this (I wanna share this) with you. Will you keep it? Its my secret, dirty little secret. Can you take it? Can we make it? Can we fake it? I know this sounds crazy but I have come to terms with this new norm and I think that I can share it with you. Just lie back and relax while I open this space I know that you can keep it, this dirty little secret. These thoughts, theyre building, theyre building in my head. Get out of my head (its filthy). Get out of my head (its filthy). Get out of my fucking head. This has gone too crazy, but I cant help myself. This is normal for me. Is this normal for you? You just shut up now and youll take your place. I know that you can keep it, this dirty little secret. Get out of my head (its filthy). Get out of my head (its filthy). Get out of my fucking head. Get out of my head (its filthy)
Get out of my head (its filthy) Get out of my fucking head!
