

# Fire Breather

Laurel

Town crier, village flyer got a skull & crossbones on his chest  
And I can't resist when he looks like this, ahh  
All his other girls face on magazines  
Big blue eyes, oh I don't know what it means, no  
What does he want from me? AhhWe're hanging in the bars  
Runnin' after cars to get home  
Wishin' on the stars, wonderin' what you are  
I just don't know, he's beautiful  
Maybe he shines a little more than meNo, it's too much, burn my sun  
Up in flames we go, you fire breather  
Ash & dust on my door, smoke rises  
Trying to survive inside your heart  
Fire breather,  
Breathin' fire into  
Fire breather,  
Tryin' to survive inside your heartFlame thrower at the show  
Make my heart melt in the middle of the room  
No, I can't stay away  
Now I'm begging you to stay, ooh  
Sittin' through the days  
And wastin' away to the weekends  
Running on the green through the sticks of the suburbs,  
I learned, maybe you shine a little more than meNo, it's too much, burn my sun  
Up in flames we go, you fire breather  
Ash & dust on my door, smoke rises  
Trying to survive inside your heart  
Fire breather,  
Breathin' fire into  
Fire breather,  
Fire breather,  
Breathin' fire into  
Fire breatherNo, it's too much, burn my sun  
Up in flames we go, you fire breather  
Ash & dust on my door, smoke rises  
Trying to survive inside your heart
