

# Kids With Guns

## Gorillaz

Kids with guns  
Kids with guns  
Taking over  
But it won't be long  
They're mesmerized  
Skeletons  
Kids with guns  
Kids with guns  
Easy does it, easy does it, they got something to say no to

Drinking out (is she real, is she)  
Pacifier (is she real, is she)  
Vitamin souls (is she real, is she)  
The street desire (is she real, is she)  
Doesn't make sense to (is she real, is she)  
But it won't be long (is she real, is she)  
Kids with guns  
Kids with guns  
Easy does it, easy does it, they got something to say no to

And they're turning us into monsters  
Turning us into fire  
Turning us into monsters  
It's all desire  
It's all desire  
It's all desire  
  
Drinking out  
Pacifier  
Sinking soul  
There you are  
Doesn't make side to  
But it won't be long  
Cause kids with guns  
Kids with guns  
Easy does it, easy does it, they got something to say no to

And they're turning us into monsters  
Turning us into fire  
Turning us into monsters

It's all desire

It's all desire

It's all desire

Is she, is she real, is she  
Is she real, is she (it's real)

Is she, is she real, is she  
Is she real, is she (it's real)  
[etc]

Is she is she real

---
