

Nighttime Story

Lo Fidelity Allstars

Bombers rip across the screen
Layin' waste to city's dreams And what's it all gonna mean
When audio psychosis builds from the speakers cones
And you can hear the music tear
Tearin' through your bones? 'Cause I'm just a crazy, mixed up kid
Out comes the truth when you take off the lid And what's it all gonna mean
When audio psychosis builds from the speakers cones
And I can hear the music tear
Tearin' through my bones? Keep on keepin' on y'all
Come home, come on back to me
Come home, come on back to me
Come home, come on back to me (Yeah, I can hear the music tear)
Come home
(Tearin' through my bones)
Come on back to me Come home, come on back to me
Come home, come on back to me
Come home, come on back to me
Come home, come on back to me (Peace Brother, peace)
Come home, come on back to me (Peace Brother, peace)
Come home, come on back to me (Peace Brother, peace)
Come home, come on back to me I had no idea it was going to end in such tragedy
