Further

Deadly Apples

You're everything for me
Wherever you are
Reaching for you is a memory
Day after day you get further

All the hope that burns within
Gets me sicker and sicker
You're everything for me
Wherever you are

All that waking for me
(The only gift for me is fate)
Every day I cannot see
(It's just so hard to break it free)

You're everything for me
Wherever you are
Reaching for you is a memory
Day after day you get further

All the hope that burns within
Gets me sicker and sicker
You're everything for me

All that waking for me
(The only gift for me is fate)
Every day I cannot see
(Tried so hard to break it free)
