Condition

Bleach

Stop what you're doing
I don't think it's becoming of you
To treat your friends like that
And all you've been saying
Man it's driving me right up the wall
I don't think I'm down with thatAnd what you gonna say when you're alone
And where are you gonna turn when there ain't nowhere left to go
Well, I thinkThis is a condition that you're living in
You've been living in
And this is a condition that you're living in
And you won't win so turn it off and start it up again
Start it up againAnd now you're just fading
You're not quite the person that you were
Back then when we'd hang out
And man you've been changing
I don't even think I recognize
This person you are nowAnd I don't mean for this to bring you down
I'd like to think you'd hear this song and turn it all around
But I knowThis is a condition that you're living in
You've been living in
And this is a condition that you're living in
And you won't win so turn it off and start it up again
Start it up again, start it up again, start it up againIt takes a sea of change
That I cannot explain
I can't wait for it to come
'Cause you'll just end up numb to itStop what you're doing
I don't think it's becoming of you
To treat your friends like that
