Throw It All Away

Charlie Wilson

Can't stop missing you, don't know what to do
Baby, think it through 'cause I don't wanna see us throw it away
I'm down, take a look around
We've come too far now and I don't wanna see us throw it awayWe've been riding on a love train
But lately baby, we can't seem to stay on track
We both agree that we need a change
Let's find a way that we can care for this love and backWhat's that I think about, ain't no one walking out
My days are lonely baby, it's just you and me coming 'round
Gotta get over this, baby, don't let it slip away
This is more than I can takeCan't stop missing you, don't know what to do
Baby, think it through 'cause I don't wanna see us throw it away
I'm down, take a look around
We've come too far now and I don't wanna see us throw it awayBaby, let's not go another day, don't ignite
[unverified] all the love
You know we have, what's it gonna take for you to stay
Tell me baby, so that we can make it lastWhat's that I think about, ain't no one walking out
My days are lonely baby, it's just you and me coming round
Gotta get over this, baby, don't let it slip away
This is more than I can takeCan't stop missing you, don't know what to do
Baby, think it through 'cause I don't wanna see us throw it away
I'm down, take a look around
We've come too far now and I don't wanna see us throw it awayBaby, we can start it all over, today
And we can make it better
I know that we don't wanna go our separate ways
So baby please stayCan't stop missing you, don't know what to do
Baby, think it through 'cause I don't wanna see us throw it away
I'm down, take a look around
We've come too far now and I don't wanna see us throw it away
Throw it awayDon't throw it away, don't throw it away, don't throw it away
Don't throw it away, don't throw it away, don't throw it away
Don't throw it away, don't throw it away, don't throw it away
Don't throw it away, don't throw it away, don't throw it away
