

# Wooden Body

[Ane Brun](#)

When I rest my chest  
On this wooden body  
Feel my soul pore through my moth  
So that everyone can hear it  
Come out That's when I know  
What it is about  
That's when I realize  
How coincident made me find this  
One thing inside of me That's when I know  
What it is about  
That's when I realize  
Realize  
Realize, realize  
Realize When I rest my chest  
On this wooden body  
Feel my soul pore through my mouth  
So that everyone can hear it  
Come out, Come out
