Blitzkrieg

Deathstars

In your dreams, hearts shake
Nerves scream, minds break
Heavens turn, grounds crack
Prayers burn, burn blackAnd it's all there inside of you
It's deadly, dark, cold
Can you feel the explosion
Now lean back and enjoy the showBlitzkrieg, blitzkrieg
Blitzkrieg, boomHope fails, death shines
Long nails, hell's vines
Terrors speak, walls fall
Addictions seek, seek it allBlitzkrieg, blitzkrieg
Blitzkrieg, boomThis is the end
Still your need is driven on, driven on.
As we trigger one last bombWounds bleed, tears ride
Demons feed, angels hide
Fathers sigh, mothers weep
Children cry, crying deepFuck the world with a gun
And a broken bladeThis is the end
Still your need is driven on, driven on
As we trigger one last bomb
