I Know

Omarion

With him thinkin' about me
Huggin' me and kissin' me
Say that you're dreamin' 'bout me
So what the hell ya doin' wit me?
On the phone, tellin' me what he does wrong
Can't keep singin' that same song
Girl, it's obvious that you need to be with meBaby, I know that you want me, know that you need me
Can't live without me but babe, you got a man
And I know that you pretend that you're in love with him
But, he can't put it down like me
That's why I know that you want me, know that you need me
Can't live without me, I know it's hard on you
But you try to pretend that you're in love with him
But I know that you really want me, girlSaid ya at home all alone while he's gone
Tryna act like what he doin' ain't wrong
If your heart says follow him, then do it
Baby girl, I'm just tryna help you through it
4 months at a time, you don't see him
Wishin' that I switch places with him
I'm not gon' pressure the issue, just let it be
And if you're meant to be with me, we'll have to seeBaby, I know that you want me, know that you need me
Can't live without me but babe, you got a man
And I know that you pretend that you're in love with him
But, he can't put it down like me
That's why I know that you want me, know that you need me
Can't live without me, I know it's hard on you
But you try to pretend that you're in love with him
But I know that you really want me, girlGirl we can't play these games
And if you feel me say oh, oh, oh, oh, oh, oh, oh, oh
And if you feel me say oh, oh, oh, ohBaby, I know that you want me, know that you need me
Can't live without me but babe, you got a man
And I know that you pretend that you're in love with him
But, he can't put it down like me
That's why I know that you want me, know that you need me
Can't live without me, I know it's hard on you
But you try to pretend that you're in love with him
But I know that you really want me, girlI know that you pretend that
I know that you pretend that
Baby, I know that you want me, know that you need me

Can't live without me but babe, you got a man
And I know that you pretend that you're in love with him
But, he can't put it down like me
That's why I know that you want me, know that you need me
Can't live without me
