

# Sister

## Devendra Banhart

Sister, sister  
Keep the fire inside  
And your dogs won't die And now it's all clear, it's all clear  
You can see the child  
Before it's born Yeah, it's all clear, it's all clear  
It's all your little sun smile  
Before it's shone Sister, we'll climb  
We'll climb 'til the dogs  
Climb over us We'll climb, we'll climb  
We'll climb 'til the dogs  
Climb over us Sister, why do you come  
And turn all the lights all out, out  
I can't see no more Now I reach out, now I feel for  
Now I reach out, now I feel for  
Now I reach out, now I feel for  
Now I reach out, now I feel for
