# World Away

## Tweedy

I only want to feel
This morning
Catch the avenue
I intend to steal
This moment
As we're moving through
Make my rendezvous
As if it's all I doI'm about to feel it lift
Sorrow floats away
Over miles of old world
Darling
Honey I can't complain
Only a world away
Only a world awayI'm about to freeze the sun
So let me fall away
How it comes to be so really
Nothings left to say
Only a world away
Only a world awayOut of bounds of maps crawl
Over the mounds of bones
Is how I came to call you lonesome
Over the telephone
Over the telephone
Only a world awayI only want to feel
This morning
Catch the avenue
I intend to steal
This moment
As we're moving through
Make my rendezvous
As if it's all I doI'm about to feel it lift
Sorrow floats away
Over miles of old world
Darling
Honey I can't complain
Love me a world away
Only a world awayI'm about to freeze the sun
So let me please explain
How it comes to be so really

Nothings left to say
Only a world away
Only a world awayOut of bounds of maps crawl
Over the mounds of bones
Is how I came to call you lonesome
Over the telephone
Over the microphone
