

Another State Of Mind

Social Distortion

Well I'm in another state, another state of mind,
I wish that I could be there right next to her
This road leads to this, this one leads to that,
Her voice sends shivers down my spine.[Chorus]
These scars in my flesh,
I'm bruised and I'm bloodied
Only she know the pain that I've been through.
Talk to her a thousand miles away,
There's tears in her eyes.
If I make it back I'm gonna show her,
she's the one for me
Hitch a ride on the wild side,
It's real hell on wheels.
There's gonna be a fight tonight, I know.
Another city we can't find,
Another city left buried behind.
As I picture her, the cities burn away.[Chorus]
