

Tell It Like It Is

[Lindi Ortega](#)

Before I say 'goodbye', before I tell you I should go
If you want me baby, gonna have to let me know
'Cause I can't read your mind You gotta play the part, invite me to the show
Rehearsing how it starts with poetry and prose
'Cause I can't read between the lines Tell me what I've miss
Seal it with the kiss
And tell it like it is
Honey I insist
You gotta tell it like it is If you keep it to yourself, I'm sure I'll never see
I won't know how you felt if you alter destiny
And I will become blind Blind to all the love and all the might have been
Don't hide it in your heart where it's dark and locked in
Oh I might shed some light Tell me what I've miss
Seal it with the kiss
And tell it like it is
Honey I insist
You gotta tell it like it is Baby's gotta (x3)
Take it from me
You gotta break the chain, and again
Let your love fly free, yeah
Let your love fly free
And tell it like it is
Tell like it is
Honey I insist
Tell it like it is
